Rita Branson Bowman : Miss Dixie and Friends: Tails of Survival before purchasing it in order to gage whether or not it would be worth my time, and all praised Miss Dixie and Friends: Tails of Survival:

0 of 0 people found the following review helpful. This is a wonderful book with beautiful illustrationsBy Snicky50This is a wonderful book with beautiful illustrations! I work with Purrfect Love Cat Rescue in Birmingham, AL. The author of this book is the most generous, kind, giving person I've even met. This is her second book and she donates the proceeds from both of her books to help cat rescues and sick kitties. She has followers all over the world on Face Book and she holds auctions to earn money for those who help save cats. Her books are a great way to educate children AND adults about feral cats. The stories are true. The feral cat population is a huge problem across the country and many humans are of the opinion that cats can take care of themselves! Not true! The best way to control the feral cat population is through trap neuter and return (TNR). They are trapped, fixed and vetted, then returned to the place they were trapped (cat colony) where they are fed by volunteers (rescue groups/neighbors) and live out their natural lives without adding more kitties to the colony. However, many rescues run into resistance from businesses, neighborhoods, etc. when they set up a feral cat colony and try to maintain the colony. Often the businesses and locals want to rid the area of all stray cats but that doesn't work, nor is it humane. More cats will come regardless of the steps taken to get rid of them. People will continue to dump kittens and cats and/or won't get their outdoor cats fixed and the problems start all over again. Rita Bowman has done so much to try to assist rescues and to educate the public. She wrote her first book From Feral To Fabulous: The story of saving Miss Dixie and many more kitties, while in treatment for Non Hodgkin Lymphoma and this second book while in remission but battling depression. Amazing woman and amazing books! You can be sure that if you purchase her books, the money will be donated to a very deserving and worthy cause!2 of 2 people found the following review helpful. compassion for ferals and straysBy LizofarcWonderful little book with stories of real rescue cats. It's encouraging to see the compassion of people and proof that rescue cats do make wonderful and loving pets. It also includes links to social media so that you can see how the cats are continuing to progress. Highly recommended reading for all ages.3 of 3 people found the following review helpful. Five StarsBy Melanie NolanThis is the best book on cats! And will benefit cat rescues. Please order one, and some for gifts.

This is a compilation of the true stories of 14 cats told through their eyes. The Author captures their beginnings, their rescues and their triumphs over obstacles. The hope is to inspire and educate children (and adults) that obstacles in our lives can be overcome with the help of others. These cats and thousands of others deserve a chance to live. Education and understanding is the key to Miss Dixie's mission: ALL life matters Visit Miss Dixie on Facebook :
